

ACCESSIBILITY NOTICE

Responsiv Solutions Limited is committed to making its website accessible to everyone, including people with disabilities.

We are working together to make our website compliant with the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA, which are the international standards for web accessibility.

This accessibility statement applies to the Responsiv Solutions Limited website, which can be found at <https://responsiv.co.uk/>.

How we made our website accessible

We have made the following accessibility improvements to our website:

- We have used high contrast colours throughout the website to make the text and images easier to see
- We have added keyboard shortcuts to all of our major functions on the website so users can navigate without a mouse
- We have made sure that all content on the website can be enlarged without losing its format

Known accessibility issues

We are aware of the following accessibility issues on our website:

- Some images on our website do not have alt text, which means they cannot be read by screen readers
- Some forms on our website are not fully accessible to users of assistive technologies

What we are doing to improve accessibility

We are working to fix the accessibility issues that we are aware of. We have a plan to add alt text to all images on our website, and to make forms more accessible to users of assistive technologies.

We will continue to work to improve the accessibility of our website on an ongoing basis.
